

PROFESSIONAL CARE AND SUPPORT SERVICES FOR SENIORS AT AMICA

We are pleased to offer multiple care and support options at our five residences in Vancouver. Our professional care and support staff (both Nurses and Registered Care Aides) are available around the clock whenever our residents need assistance. We tailor our services based on unique needs and preferences.

Independent Living

For your patients who are able to comfortably live on their own, we offer Independent Living. Your patients will always have the support and care they need, whenever they need it.

Registered Assisted Living

Should your patients need additional support with daily living, we deliver specialized care and support in the privacy of the resident's suite. The care we provide evolves as needs change.

Long-Term Care

For residents who require regular and ongoing support with daily living, we offer Long-Term Care. With care overseen by our Director of Wellness, our Long-Term Care program offers full support for your patients with chronic or progressive conditions experienced due to aging.

Memory Care

For residents living with Alzheimer's or other forms of dementia, full support is available on our secure Memory Care floor from our certified team members trained and proficient in dementia care.

Respite/Short-Term Stays

For your patients who are convalescing or needing a break, we offer both respite stays and short-term stays*

Personalized Wellness Plan

For each resident, we develop a Personalized Wellness Plan so they can take full advantage of all that Amica has to offer. Our Director of Wellness will build a customized plan based on social, intellectual, physical, care and support needs to ensure your patients are always getting the most from life at Amica.
